The Key Competencies are the capabilities young people have, and need to develop, to live and learn today and in the future. They are imbedded in each learning area to support our young people in becoming confident, connected, actively involved, lifelong learners as described in the New Zealand Curriculum vision. See the attached information page for more about how we can support our students to develop their key competencies for learning.

Categories for Achievement : Excellence; Merit; Achieved; Developing; Not Achieved

On the report above students will have three types of grades: Completed NCEA internal assessments with a grade and credits earned towards their NCEA qualification; NCEA Internal assessment that are yet to be assessed; and formative assessments that are not worth credits but show a student's progress towards an assessment that will be assessed later in the year. Some subjects will also have external assessments that are examined at the end of the year that are not shown on this report.
